

Marshawn Davidson | Front-End Developer

Skills

Languages - JavaScript, HTML, CSS, SASS, SCSS, Python, EJS | **Libraries and Frameworks** - React, Node.js, Express.js
Database - MongoDB, Mongoose, PostgreSQL, Sequelize | **Other** - RESTful Routing, JSON, Git/Github, Postman

Software Development Projects

06/2021 - PRESENT

Wayfarer - A travel blog website that requires user login to add and delete their travel locations and posts.

- Collaborated on a full-stack application utilizing a React front-end and an Express backend to provide a complete user experience.
- Utilized React components to build a multi-dimensional index page that initializes API fetch calls to MongoDB, allowing user data to render on the browser.
- Assembled restful routes with Express and Node.js for the backend to handle all create, read, update, delete (CRUD) operations.
- Styled home page carousel, index, and show routes with CSS, Flexbox, and Grid presenting a uniform feel.

Label - A musical artist platform inspired by Spotify.

- Engineered front-end to prioritize the power of SASS and SCSS.
- Coded EJS and Javascript to incorporate interactive buttons, links, video sliders, and pop-up screens.
- Constructed 7 restful routes with Express to handle CRUD through MongoDB.
- Applied Partials for a constant navigation bar are displayed on all web pages.

BLVD - Full-stack application that allows creative users to create, delete, and edit profiles.

- Express, MongoDB, Node.js backend handling CRUD operations.
 - Adapted Mongoose to define schemas for MongoDB collections.
 - Utilized forms with EJS to enable user profile creation.
 - Styled front-end with CSS, Flexbox, and Grid for a sleek user experience.
-

Professional Experience

American Income Life - Life Agent | Remote

01/2021 - 05/2021

- Displayed presentation etiquette when thoroughly pitching and explaining the line of products to customers.
